## COMMERCIAL AND FINANCIAL

Profit Realizing Mevement Causes Bearish ness in Grain and Provisions.

Corn Begins with Advance and Then Becedes-Provisions Hold Out Against the Prevailing Influences Fairly Well.

WHEAT OPENS HIGHER AND TAKES DROP

CHICAGO, March 14.—A profit realizing movement on change today effected a depression in both grain and provisions, prevailing against builish conditions which were the cause of considerable strength early. Wheat closed by lower, corn and cats each a shade down and provisions so 7½ to 30c depressed.

Strength and builish activity, together with the punishment of shorts in wheat, came at the opening as a result of an advance at Liverpool and the lightness of northwest receipts, due partly to unfavorable weather. May opened \$4.00 higher at 75%c. Outside interests snd the silent speculators who work through brokers in the majority of cases supported the market, while the crowd which was long sold liberally to secure profits. Demand was heavy, however, and during most of the foreneon the market fluctuated between 75%c and 75%c. A good cash demand and liberal clearances at the seabeard were supporting influences, following the opening. During the afternoon the corn break brought additional selling pressure on the market and May was forced down to 75%c. The close was heavy, \$\frac{1}{2}\$ to \$1.00 hushels. Scaboard clearances in wheat and flour aggregated 514,000 hushels, while primary receipts were \$55,000 hushels, compared with 718,000 hushels, while primary receipts were \$55,000 hushels, compared with \$718,000 hushels, while primary receipts were \$55,000 hushels, compared with \$718,000 hushels, while primary receipts were \$55,000 hushels, compared with \$718,000 hushels, status and flour aggregated \$14,000 hushels, while primary receipts were \$55,000 hushels, compared with \$718,000 hushels, status and flour aggregated \$14,000 hushels, while primary receipts were \$55,000 hushels, compared with \$718,000 hushels, while primary receipts were \$55,000 hushels, the primary receipts were \$55,000 hushels, while primary receipts were \$55,000 hushels, the primary receipts were \$55,000 hushels, while primary receipts were \$55,000 hushels, the primary receipts were \$55,000 hushels, the primary receipts were \$55,000 hushels, the p This advance coming on top of yesterday's gain proved tempting to longs. The weather, while unpropitious for the movement, was shown in a bearish light by the improved grafting of receipts. Shippers reported that the buige had shut off inquiry. May, in consequence, declined to the and closed easy, a shade lower at slige. Receipts were 263 cars, 5w of contract grade.

Although the profit-taking movement in the provisions pit was generally of an aggressive order the market was not forced much below its recently attained high mark. Lard and ribs were sold on a liberal scale by packers and some speculative longs, but the trade in pork was comparatively light. Hog receipts and the market at the stock yards remained favorable to the buils. May pork advanced to \$15.674, carly, but declined later to \$15.39 and closed 39c lower at \$15.324; May lard sold between \$7.724 and \$7.65, closing 5071/2c down at \$7.65, with the close 1/2670c depressed at \$7.60.

The oats market was a narrow one. It showed a small advance early with corn and later reacted with that market, but the undertone was firm on a good cash demand. Receipt were 138 cars. May sold between 254c and 243/425c and closed a shade lower at 25c.

Estimated receipts tomorrow: Wheat, 80. at 25c.
Estimated receipts tomorrow: Wheat, 80 cars; corn, 245 cars; oats, 200 cars; hogs, 20,000 head.
The leading futures ranged as follows:

MIGTALS—The downward movement continues in copper circles abroad. A further loss of 12d under liquidation occurred, with the market finally weak in tone at £81.55, this being the lowest figure reached since Dovember, 1999. The local situation, nevertheless, was dull and featureless, with prices more or less nominal on the basis of \$17 for Lake Superior and \$16.214 for casting and electrolytic. Tin was somewhat depressed today by unfavorable reports from Londen, prices there closing at a decline of 5s to £117.5s, but trading locally was on very conservative lines. The close here was quiet and easier at \$25.25. Lead displayed little of interest and prices were unchanged. Spelter was again weak in tone, but not quotably lower, closing weak at \$3.509.255. American fron markets were dull and nominally unchanged. Fig fron warrants, \$9.86210.50; northern foundry, \$14.509.15.75.

Soft southern, \$12.00615.75. English markets were lower. Glasgow warrants closed at 53s 1d and Middlesborough 45s 1042d.

MOVEMENTS OF STOCKS AND BONDS. Rise in Conler Stocks Causes Cover-

Rise in Coaler Stocks Causes Covering Movement in Shorts.

NEW YORK, March 14.—There was more activity and variety in the last half hour of today's stock market than during any other period of the session. A buoyant rise in the Eris stocks, led by the second preferred and followed by the other coalers, caused a covering movement among the shorts all around the room and a smart rise in prices. The bears railled their forces and raided stocks here and there sufficiently to check the advance and unsettle the close. The advance in Eric second preferred in the final bulge was 4½ and the other coalers rose between 1 and 2 points in sympathy. The St. Faul dividend mcrease seemed to fall flat on the market. The expectation of the afternoon action had held the market in check all through the day. The stock was run up 2 points during the morning, but when the increase in the dividend was announced selling to realize wiped out all but a small fraction of the rise. It looked as though the heaviness in St. Pani would carry down the whole market until the rise in the Eries stiffened the tone. For the rest the market was rather dull and marrower than of late. It continued to be characterized by the movement of specialties to a large extent. The Southwestern railroad stocks continued in large demand on the general ground of the prosperity of that region of the country and the expectation of a coming amaignmation of important railroad properties there. The Wabash securities came to the front in the rovement and were bought on a very large scale. Many of the minor railroad properties continued in my and the expectation of a coming amaignmation of important railroad properties there. The Wabash securities came to the front in the professed belief in their coming absorption by the great systems. Several of the subsidiary Vanderbill lines were included in this movement today. Chicago, Indianapolis & Louisville and New York. Chicago & St. Louis first preferred moved up 3 points and other stocks of these companies and Canada Southern

terests who will benefit by tomorrow's dividend distribution.

London bought quite freely in this market, and especially of Chicago Great Western, and a cheerful tone was reported there by the reason of the belief in an early peace in South Africa. Sterling exchange hardened here in spite of easier money in London and the buying of stocks here for London account. Buying for remittance on account of subscriptions to German municipal loans is believed to be the cause of the higher exchange rates.

Business in railroad bonds continues very large, but profit-taking in the speculative issues caused some irregularity in today's price movement. Total sales, par value, \$8,065,000. United States refunding 2s, the last call.

The following are the closing price on

last call.

Cotton Market.

NEW YORK, March 14.—COTTON—Acting upon incentive furnished by the cables, shorts turned for profits in today's cotton market and public buying for a generous improvement became somewhat of a factor. Europe was a large purchaser so long in vogue and bought May and July cotton sparingly. The opening was firm, with prices I point lower to 9 points higher. Soon after the call buying was general and very active at a basis of 9 points above last night's figures, with the feeling once more buillish. The English market was reported stronger. Before midday the local market had partially reacted under room profit-taking and a slight falling off in the outside support. But early in the afternoon renewed buying for both accounts sent prices back to about the best level of the morning, with the market thereafter tolerably firm and fairly active. Large port and interior receipts had been thoroughly discounted by the local trade and played an unimportant part as an influence. The Ellison estimate for a shortage in the supplies on September 1 next had more weight in Liverpool than here. The market was finally firm, with prices net 8711 points higher. Futures closed firm; March, 8.38c; April, 8.40c; May, 8.42c; June, 8.48c; July, 8.50c; August, 8.22c; September, 7.84c; October, 7.74c; November, 7.84c; December, 7.84c; October, 7.74c; November, 7.84c; December, 7.85c; January, 7.82c, Spot closed steady; middling uplands, 83c; emiddling guif, 9c; sales, 200 byles.

LIVERPOOL, March 14.—COTTON—Spot, good business done; prices 1-32411-164 higher; American middling, 45:-84d, sellers; March and April, 455-64d, sellers; September, 7.84c; June, 846-84d, sellers; October, g. o. c., 425-64d, and July, 454-64d, 55-64d, buyers; July and August, 436-64d, sellers; October, g. o. c., 425-64d, and July, 454-64d, sellers; September, 456-64d, sellers; October, g. o. c., 425-64d, and July, 454-64d, sellers; September, 456-64d, sellers; Gal-Veston, March 14.—COTTO

OII. CITY, Pa., March 14.—OII.S—Credit balances, \$1.28; certificates, no bid; shipments, \$7.594 bbls.; average, \$9.541 bbls.; runs, 112,739 bbls.; average, \$6.030 bbls.; NEW YORK, March 14.—OII.S—Cotton-seed, firmer; prime crude, 28c; prime yellow, 31c, Petroleum, dull; refined New York, \$7.45; Phitadelphia and Baltimore, in bulk, \$5.35. Rosin, steady. Turpentine, dull.

LONDON, March 14.—OII.S—Linseed, 23s. Turpentine spirits, 27s 14d.

LIVERPOOL, March 14.—OII.S—Cotton-seed, Hull refined, spot, firm, 20s 3d. Turpentine spirits, quiet, 27s 3d. Oll Market.

New York Bry Goods Market.

NEW YORK, March 14.—DRY GOODS—Further purchases of brown drills reported for China and bids in the market for several round lots. The home demand has not improved for either sheetings or drills and prices are irregular. Bleached cottons are quiet throughout. Wide sheetings in moderate demand. Denims duil and ticks and other coarse colored goods quiet and easy. Prints and ginghams unchanged. Better grades of denims firm. Cotton linings irregular in both staples and fancies.

OMAHA LIVE STOCK MARKET

• Indicates Sunday. The official number of cars of stock brought in today by each road was: Cattle, Hogs. Sh'p. H'r's. 

about steady. Veal calves were in good de-mand and sold strong. The same could be said of stags.

There were very few feeders offered to-day, and, the demand being in good shape, sellers found little difficulty in disposing of their holdings at good, firm prices. Anything showing quality is in demand, but the common kinds are neglected. Repre-

BEEF STEERS. 

STEERS AND HEIFERS. STEERS AND STAGS. cows

HOGS—There was a very light run of hogs here today and as the demand on the part of packers was in good shape the market opened generally los higher. The range of prices was from \$3.525 to \$3.50, with the long string at \$5.55. The choicer and heavier weights sold at \$5.575 and as high at \$5.69 was paid for a fancy load. The market was fully active and the bulk was sold in good season. Today's advance carries the market not only to the highest point reached this year, but to the high point since September, 1894. On April 12 of last year the market averaged \$5.55, which was nearly as high as today's average, and the top was 75c higher.

The last end of today's market was perhaps hardly as good as the best time, but it was the less desirable loads that were jeft until the close. Everything was gold in good season. Representative sales:
